SECTION 1

Signing In

Every official user starts here, before landing on their role's dashboard.

1 Choose your access type

On the landing page, click **Official Access** → **Login with Credentials**. Public Access needs no login; Admin Access uses a separate mobile-OTP flow reserved for system administrators.

Portal selection screen — three access types.

2 Enter your username and password, and solve the security check

Type your username and password. A live-generated image (with an audio alternative) sits below the password field and must be answered correctly before Login activates.

Login form filled in — approver1, with the security check solved.

Tested with account: **approver1** — Approver, Dept. Approver, Hartron

Your Dashboard

This is what you land on right after signing in — every document from your department that hasn't been decided yet, plus quick access to Link Requests and Act Parts Review.

1 Overview and pending queue

Pending / Approved / Rejected / Total counts sit above the list, and double as filters — click one to narrow the list below to that decision. Use the type chips or the search box to find a specific document.

Dashboard — 5 documents pending review, 2 already approved.

SECTION 3

Reviewing a Document

Click any row to expand it into a full review panel.

1 The 3-panel review

The original PDF opens on the left — with zoom, rotate, page navigation, and an Open-in-new-tab link — and its complete metadata (title, type, department, legal authority, uploader) on the right.

Expanded review — PDF viewer and metadata side by side.

2 Highlight the exact mistake on the PDF

Instead of only describing a problem in words, click **Highlight** to enter highlight mode (pick from 4 marker colours if tracking several issue types at once), then click-and-drag a box directly over the region that has the problem.

Highlight mode active — colour picker revealed, cursor becomes a crosshair over the PDF.

Reviewing a Document — continued

3 Describe what’s wrong at that exact spot

Releasing the drag opens a small popup — type what’s wrong right there and click Save (or Ctrl+Enter). This is separate from the overall remark further down: think of it as "what’s wrong *here*" versus the overall remark’s "what’s wrong with the document as a whole."

Box drawn over the problem area — the "Add Comment" popup appears right after release.

4 Saved highlight

The highlight stays on the page as a coloured box with a small marker icon — click it any time to reopen its comment or delete it. Repeat for as many problem spots as needed, then click Exit Highlight when done.

SECTION 4

Approving

Below the metadata panel, add one or more overall remarks, then decide.

1 Add an overall remark

Use + **Add Remark** for feedback that isn't tied to one exact spot on the page — numbered remarks stack up, and each can be removed individually.

Rejection remark filled in for a second document.

2 Rejected

The document drops off Pending Approvals the same way an approval does — the difference is entirely in the decision and the remarks the uploader receives.

Queue right after rejecting — both demo documents are now off the pending list.

Reviewed History

Every document you’ve approved or rejected stays visible — nothing disappears once decided.

A real pending request — Uploader 1 asked to link in a Notification originally from CS Haryana.

Link Requests — continued

2 Inspect the original document

View Document opens the same 2-panel layout as a regular review — the source PDF on the left, and on the right both the document’s own details (including which department it originally came from) and the link request itself (who asked, and when).

Reviewing the request — document info and link request details side by side.

Link Requests — continued

3 Remark, then decide

A remark is optional for approving but required for rejecting — the same Add Remark pattern as a document review. Approve immediately links the document into your department; Reject leaves it out, with the reason visible to whoever requested it.

The Approved (and Rejected) tabs keep every past decision visible, complete with who reviewed it, when, and the remark left — the same audit trail as regular document approvals.

Approved tab — full record of the decision.

Act Parts Review

Menu: **Act Parts Review** — Sections, Schedules, Annexures, Appendices and Forms submitted by uploaders, awaiting your decision.

1 Pending act part submissions

Each row shows the parent Act, which part was submitted, who submitted it and when. Click **View & Decide** to open the full submission and approve or reject it, the same way as a regular document.

Empty state — all caught up, nothing pending right now.
